

# 19<sup>th</sup> International Conference on Thin Films (ICTF-2023)

Burgos, Spain. September 26-29th 2023

**Exhibition and sponsorship opportunities**

(ver. 28 nov 2022)

Technical secretariat: [info@ictf2023.com](mailto:info@ictf2023.com)

## Welcome letter

On behalf of the Organizing Committee, it is my pleasure to invite you to participate in the 19th International Conference on Thin Films ICTF-2023 organized by the Spanish Vacuum Society (ASEVA) in Burgos (Spain) September 26-29th, 2023.

The International Conference on Thin Films is a well established conference series (first edition took place in Boston, Massachusetts, US in 1969) for all researchers interested in thin films and coatings. It is organized after every three years and supported by the Thin Film Division of the International Union for Vacuum Science, Technique and Applications (IUVSTA), a union of national member societies whose role is to stimulate international collaboration in the fields of vacuum science, techniques and applications and related multi-disciplinary topics.

The list of topics covered by this conference series is rather wide. Among them, thin film instrumentation, metrology and modelling, thin film engineering, nanostructured coatings, semiconductor, ferroelectric, piezoelectric, or magnetic thin films, photo-, electro-, thermo-, or gas- chromic coatings, protective coatings, polymeric based thin films, thin films for optoelectronics, nanoelectronics and spintronics, thin films for energy harvesting and storage, thin film catalysts, thin film based sensors or thin films for biomedical applications.

The venue of the conference is in Burgos, a beautiful modern city in northern Spain, located 240 km north of Madrid. In brief, let's mention that Burgos is the historic capital of the Crown of Castile and has many historic landmarks of particular importance. The city has the privilege to host three of UNESCO World Heritage Sites: the Burgos Cathedral, the Archaeological Site of Atapuerca, and the Routes of Santiago de Compostela.

The scientific activity during the conference will take place at the Forum Evolution Conference Center, a modern space combining culture and knowledge. It is equipped with the most advanced technology and state-of-the-art stage equipment to host conferences and commercial exhibitions. It is located right in the center of the city, a step from the historic downtown and very close to Burgos' main hotels, restaurants and commercial area.

We invite you all to ICTF-2023 in Burgos, wishing you a fruitful meeting and a pleasant stay in Spain.

Francisco YUBERO  
Irene PALACIO
